

Farhad Mojirsheibani

Full-Stack AI Developer

Redlands, CA | 818-535-1692 | sheibaniyt@gmail.com
portfolio.sheibanihq.com | github.com/sheibaniyt-lang | youtube.com/@SheibaniOfficial

PROFILE

Full-stack AI developer who ships with AI coding agents (Claude Code, Codex). Core strengths: problem-modeling, product judgment, and technical writing. Given a rough idea, I pin down the workflow it needs and write the spec and guardrails; AI agents write the code; I review, test, and own every release until the thing works in a user's hands. I write Python fundamentals by hand and am building on them through CSUN's computer science pathway.

SKILLS

Shipped with AI coding agents: Next.js, React and TypeScript | Cloudflare Workers, D1 (SQL) and Access | Supabase | Claude and Gemini API integration | Voyage embeddings | Google OAuth, Gmail and YouTube APIs | Resend email | DNS, DMARC / DKIM / SPF deliverability

Hand-written: Python fundamentals (SoloLearn Python Developer certificate)

Product and delivery: Product direction and UX | AI workflow and prompt design | Specs and agent guardrails | Research synthesis and output evaluation | Functional testing, issue triage, fix validation, and redeployment | Technical content and analytics | English and Farsi

SELECTED FULL-STACK & AI WORK

portfolio.sheibanihq.com | Portfolio & Website-Service Platform (Next.js, Cloudflare Workers + D1 database, Resend email) | 2026

- Price builder and quote quiz; each inquiry is saved to the database before it is emailed, with spam checks, a rate limit and a private admin inbox, checked by 25 automated API tests.

Tavri | iPhone Prototype for Security-Guard Shifts (Swift; 107 automated checks) | 2026

Twofold | Pre-Release iPhone Alarm & Timer App (Swift; 27 code and 7 screen checks) | 2026

Daryl / SheibaniHQ | Private AI Creator Operations Assistant (Gmail, YouTube, Claude APIs) | Ongoing

GasElite | Live Launch & Waitlist Site (React, Cloudflare D1, Resend) | 2026

RemoteFit | Remote Role Finder & Application Tracker | 2026

F800 Series | Hand-Written Python Learning Project (Gemini API) | Model 001 + Model 002 | 2026

RELEVANT EXPERIENCE

@SheibaniOfficial | Content Creator & Channel Operator | Ongoing

- Own the full production loop for a consumer-technology channel: topic research, scripting, filming, editing, publishing, and post-release analysis, across long-form and short-form video. The channel has close to 900 videos, 4,100+ subscribers, and more than 4 million lifetime views; vidIQ's June 30, 2026 audit measured 91.8% average view retention. Each release is tuned off audience signals, sponsorship outreach, and collaboration workflows.

Independent Referral-Based Academic Tutor & Writing Support | 2015-Present

- Run one-to-one academic and writing sessions by referral: adapt each explanation to how the person thinks, judge clarity and evidence in their work, and turn feedback into a concrete next step.

Customer Service & Operations | The Home Depot, Macy's, The Vitamin Shoppe | 2021-2025

- Handled high-volume customer issues, followed orders and deliveries through to completion, kept case notes for the next shift, and stayed calm across cross-team escalations.

EDUCATION & CREDENTIALS

California State University, Northridge - B.A. Child & Adolescent Development, Early Childhood option, expected December 2026.

Master of Science in Computer Science pathway - CSUN department-guided plan; target December 2028.

SoloLearn Python Developer course certificate (August 2026) | CPR / AED / First Aid valid through April 2028 |

California BSIS Guard Card
